

VISUAL REFLECTIONS ON SCIENCE

KEY DATES

Submission Opens 14/02
Submission Closes 26/03
Notice of Acceptance 18/04
Exhibition Opens 19/07
Exhibition Closes 23/07

AWARD

Participants are invited to enter a competition for a \$200 cash award. The winner will be selected by ISMB delegates.

ORGANIZING COMMITTEE

Milana Frenkel-Morgenstern
Nils Gehlenborg
Manuel Corpas

ADVISORY COMMITTEE

Burkhard Rost
Michal Linial

Exhibition at ISMB 2008 July 19 - 23, Toronto, Canada

CALL FOR PARTICIPATION

ISMB 2008 will bring together scientists from a wide range of disciplines, including biology, medicine, computer science, mathematics and statistics. In these fields we are constantly dealing with information in visual form: from microscope images and photographs of gels to scatter plots, network graphs and phylogenetic trees, structural formulae and protein models to flow diagrams; visual aids for problem-solving are omnipresent.

Often these visual aids are mundane and nothing more than a small clue to the solution of the problem. But then there are special ones that make the whole more than the sum of its parts. Ones that combine outstanding beauty and aesthetics with deep insight that perfectly proves the validity of the scientific approach or goes beyond the problem's solution. Ones that surprise and inspire us through the transition from science to art, ones that open our eyes and minds to reflect on the work we are doing.

For the ISMB 2008 Visual Reflections on Science Exhibition the organizers invite all interested conference attendees to submit images and videos that have been generated as part of a research project. They are also soliciting images and videos resulting from creative efforts that involve scientific concepts or employ scientific tools and methods

Participate in this exciting new ISMB event to surprise and inspire us, to open our eyes and minds! Further details are provided on the ISMB 2008 website.
