GROUP REGISTRATION

Register six delegates and receive one free ISMB conference registration!! Individuals from the same lab or organization have an opportunity to receive a complimentary 7th conference registration free when registering as a group. To take advantage of this special offer the group should simply identify a group leader and have her/him contact the ISMB registration team at ismb_group@cteusa.com

HOUSING

Serving as the Headquarters Hotel, the Sheraton Boston Hotel is offering discounted rates specifically for ISMB 2010 delegates. The hotel is directly connected to the Hynes Convention Center, which is ideally situated in the heart of Boston. ISMB delegates wanting to receive discounted hotel rates should book directly with the Sheraton Boston Hotel (www.iscb.org/ismb2010-generalinfo/housing).

INTERNATIONAL VISITORS TO BOSTON

All international visitors, regardless of country of origin, must present a passport when entering the United States, and in many cases an entry visa is also required.

It is essential that delegates arriving from outside the US have a valid passport with expiration at least six months after the planned date of entry, and any other required travel documents such as an entry visa.

Details are available on a number of websites including:

www.discoveramerica.com/ca/entry.html

Lunch is included in registration fee for delegates registering for two tutorials.

Morning Tutorials: 8:30 a.m. - 12:30 p.m.

- AM 1:** Teaching bioinformatics in high school biology courses
- AM 2:** How to understand the cell by breaking it — computational analysis of single and combinational gene perturbations.
- AM 3:** Pathway analysis of expression data: Deciphering functional building blocks of complex diseases.
- AM 4:** Integrative Genomics Viewer (IGV)
- AM 5:** An insight into computational and statistical mass spectrometry-based proteomics.

Afternoon Tutorials 1:30 p.m. - 5:30 p.m.

- PM 1:** Using All the Data: Large Scale Biological Data Mining for Functional Genomics and Metagenomics.
- PM 2:** The next generation biological network visualization and analysis. The size does matter.
- PM 3:** Functional Genomics with Deep Sequencing
- PM 4:** Galaxy: Analyze, Visualize, Communicate
