Career Central Talk, Sponsored by FASEB, Featuring Dr. Howard G. Adams

Saturday, May 17, 4:30 – 5:30pm
Location: Kresge Auditorium

Adams has been recognized by two presidents. In 1989 President Ronald Reagan named Adams to the US Congressional Task Force on Women, Minorities, and the Handicapped in Science & Technology and in 1995 President Clinton named him one of the first recipients of the Presidential Award for Excellence in Science, Mathematics, Engineering and Mentoring. Adams was named a “20th Century Outstanding Educator” by Black Issues in Higher Education, 1999; and was awarded the Golden Torch Award for “Lifetime Achievement in Academia” by the National Society of Black Engineers, 2002. He was selected a “2004 Distinguished Alumnus” of Historical Black Colleges and Universities by the National Association for Equal Opportunity in Higher Education and named an “2004 Alumni Star” by the School of Science and
Technology, Norfolk State University. In 2006 he received the QEM Catalyst in STEM award for "Broadening Participation and Effectiveness of Mentoring in STEM. He was named a History Maker in Sciences Education in 2012 by The History Makers (the nation’s largest African American video history archive).

Prior to starting his company, he was Executive Director, National Consortium for Graduate Degrees for Minorities in Engineering and Sciences, Inc.; (GEM) (1978-1995), headquartered at the University of Notre Dame, Notre Dame, IN, and Vice President for Student Affairs, Norfolk State University (1974-1977, Norfolk, VA. Adams holds a B.S. from Norfolk State University, M.S. from Virginia State University and the Ph.D. from Syracuse University.
